Connect and Reflect

Making connections and discovering relationships takes all learners from surface learning (knowing important facts) to deep learning (constructing understanding and new ideas). (Hattie, 2017)

CAPTURE THE **BIG IDEAS** and **MAKE CONNECTIONS**: how do these ideas connect to your setting?

Learning Targets	Big Ideas	Implications and Connections
• Review **Standards for Mathematical Practice** and **Noncognitive Factors**		
• Learn specific strategies: **Believe**; **Tinker**; **Confer**; **Visual Models**		
• Observe and consider the power of **Discourse**
