

ESSA AND EQUITABLE ACCESS TO EXCELLENT EDUCATORS

NATIONAL TITLE I CONFERENCE
FEBRUARY 2017 | LONG BEACH, CALIFORNIA

Welcome and Overview

PRESENTERS

- **Monica Young,**
Equitable Access
Support Network

- **Kate Sullivan
Frades,** Equitable
Access Support
Network

- **Danielle Smith,**
U.S. Department
of Education

OBJECTIVES

Participants will be able to...

- Identify the key provisions in Title I, Part A of the Every Student Succeeds Act (ESSA) that address equitable access to effective educators
- Consider opportunities to apply strategies used in other States and districts to address equitable access in their own context
- Consult Equitable Access Support Network (EASN) resources to address inequitable access to effective educators

INTRODUCTIONS

Get to know a neighbor. You will work together again in this session!

Please share:

- Your name
- Your role in ensuring equitable access to excellent teachers
- Something you want to learn about how your peers are addressing equitable access to excellent educators

ESSA and Equitable Access

HOW WE GOT HERE

July 2014: The U.S. Department of Education announces the **Excellent Educators for All** initiative.

June 2015: States submit **Educator Equity Plans** to the U.S. Department of Education.

April/September 2017: States **submit ESSA state plans** to the U.S. Department of Education.

October 2014: The **Equitable Access Support Network** is established to support States in developing and implementing educator equity plans.

December 2015: The **Every Student Succeeds Act (ESSA)** is signed into law, reauthorizing the Elementary and Secondary Education Act of 1965 (ESEA). Educator equity is maintained as a requirement in Title I, Part A.

SUPPORTING EXCELLENT EDUCATORS

EDUCATOR EQUITY: ESEA SECTION 1111(g)(1)(B)

Title I, Part A of the ESEA states that each State plan shall describe:

- How low-income and minority children enrolled in schools assisted under Title I, Part A are not served at disproportionate rates by ineffective, out-of-field, or inexperienced teachers, and
- The measures the State educational agency (SEA) will use to evaluate and publicly report its progress in addressing any disproportionality.

SUPPORTING EXCELLENT EDUCATORS

EDUCATOR EQUITY: ESEA SECTION 1111(g)(1)(B)

This description may include:

- **Definitions** for key terms:
 - Ineffective Teacher, Inexperienced Teacher, Out-of-field Teacher
 - Low-income Student, Minority Student
 - Other key terms
- **Calculation of statewide rates** at which low-income and minority students enrolled in schools receiving Title I, Part A are taught by ineffective, out-of-field, and inexperienced teachers compared to non-low-income and non-minority students enrolled in schools not receiving funding under Title I, Part A
- **Likely causes** of most significant differences in rates
- **Identification of strategies**, including timelines and Federal or non-Federal funding sources
- **Timelines and interim targets** for eliminating **all** differences in rates
- **Annual public reporting**

SUPPORTING EXCELLENT EDUCATORS

EDUCATOR EQUITY: ESEA SECTION 2101(d)(2)(E)

- **Title II, Part A** of the ESEA provides funding to support effective instruction, including State activities to improve equitable access such as preparing, training, and recruiting high-quality and effective teachers, principals, and other school leaders.

SUPPORTING EXCELLENT EDUCATORS

EDUCATOR EQUITY: ESEA SECTION 1112(b)(2) AND SECTION 2103(b)(3)(B)

Additionally, the ESEA requires local educational agency (LEA) plans to describe:

- How the LEA will identify and address any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

In addition to activities under Title I, Part A, LEAs may use Title II, Part A funds to support:

- Developing and implementing initiatives to assist in recruiting, hiring, and retaining effective teachers, particularly in low-income schools with high percentages of ineffective teachers and high percentages of students who do not meet the challenging State academic standards, to improve within-district equity in the distribution of teachers, consistent with section 1111(g)(1)(B).

ENGAGING LOCAL STAKEHOLDERS

EQUITY LABS

- An Equity Lab provides an opportunity for a State to gather together districts to help them develop and implement local plans to improve the access low-income and minority students have to excellent teachers.
- Four States held Equity Labs in 2016: Missouri, Mississippi, Ohio, and Connecticut.
- Resource to come! EASN's *Equity Lab Toolkit* (to be released in Spring 2017) provides step-by-step guidance for States to design and lead a successful Equity Lab from start to finish.

State Equity Plan Data Matrix

Version Control Information	Date: Monday, August 17, 2015 Please submit questions and comments to: easn@aemcorp.com .
Publication Explanation	This publication features information from State Equity Plans submitted to the U.S. Department of Education on June 1, 2015, that were posted publicly at http://www2.ed.gov/programs/titleiparta/resources.html . Inclusion of this information does not constitute an endorsement by the U.S. Department of Education of any products or services offered or views expressed, nor does the Department of Education control its accuracy, relevance, timeliness, or completeness.
Background	The Equitable Access Support Network, sponsored by the U.S. Department of Education, offers collective and individualized technical assistance (TA) and resources to all 50 States and their districts. The Network will assist in the development and implementation of statewide equity plans and will provide assistance to States as they put in place strategies to ensure equitable access to excellent educators for all students.

STRATEGIES TO ADDRESS ROOT CAUSES

TALENT MANAGEMENT CHECKLIST

Resource: Talent Management Checklist (and Guide, forthcoming)

- This tool was developed by the EASN LEA Equity Planning Workgroup in 2016.
- District teams can use the tool to assess the usefulness of their talent management strategies in helping to ensure equitable access.

Recruitment

Many districts struggle to find and recruit effective educators, especially in content areas of high need. Having access to a large pool of qualified applicants for open positions is essential for district hiring success.

Prior to completing the self-assessment below, you may want to gather and review the following evidence sources:

- Current job postings
- Salary scales
- Recruiting metrics, e.g., time to hire, sourcing channel, open vacancies vs. positions filled, candidates per hire, applicant data
- Feedback from prospective and hired educators

STRATEGY 1: Create an attractive professional environment.

Identify and evaluate what your district does to market itself to prospective educators.

a. What professional development and leadership opportunities does your district provide to educators? Are these opportunities reflected in the job postings?

b. What is attractive about the schools and communities you serve? Are these qualities reflected in job postings?

Hiring

Strong recruitment efforts will fail if weak hiring practices turn applicants away. An effective hiring process is crucial to establishing a workforce of effective educators in your district. Below are some research-driven strategies you may consider implementing to improve your district's hiring practices.

Prior to completing the self-assessment below, you may want to gather and review the following evidence sources:

- Hiring timelines
- Educator contracts
- Interview protocols and materials
- Applicant and hiring data
- Hiring feedback surveys
- Feedback from hired educators

STRATEGY 1: Establish early hiring timelines.

Publish vacancy notices as early as possible.

a. By when does your district typically know its hiring needs for the following year?

MONITORING THE PLAN'S SUCCESS

EQUITY DATA TIPS SHEETS

Resource: Equity Data Tips Sheets

- These tips sheets on equity data analysis are a product of the EASN Managing for Results Workgroup, which met throughout 2016.
- States can use these to help set equity goals, develop metrics to track progress, and refine systems to collect and analyze equity data.

<https://easn.grads360.org/#communities/pdc/documents/10264>

<https://easn.grads360.org/#communities/pdc/documents/13679>

The image displays three overlapping preview cards for 'Equity Data Tips Sheets' from the Equitable Access Support Network. Each card features the network's logo (a stylized building icon) and a title for a specific tip sheet. The top card is titled 'State Plans to Ensure Equitable Access to Excellent Educators Implementation Tips Sheet #1: Setting Equity Goals' and is dated February 2016. It includes a 'State Spotlight: Arkansas' section with a map of the state and a photo of a meeting. The middle card is titled 'State Plans to Ensure Equitable Access to Excellent Educators Implementation Tips Sheet #2: Identifying Metrics to Track Progress' and is dated May 2016. The bottom card is titled 'State Plans to Ensure Equitable Access to Excellent Educators Implementation Tips Sheet #3: Collecting, Analyzing, and Responding to Data' and is dated February 2017. Each card also contains a brief introductory paragraph about the sheet's purpose.

Equitable Access Support Network

State Plans to Ensure Equitable Access to Excellent Educators

Implementation Tips Sheet #1: Setting Equity Goals

February 2016

Before a State can develop effective strategies to address its equity gaps, it needs to clearly define the problems it is trying to solve. This brief describes three tools State Education Agency (SEA) staff can use to clarify their thinking about why equity gaps exist and why particular strategies may work better.

State Spotlight: Arkansas

During an equity plan development meeting,

Equitable Access Support Network

State Plans to Ensure Equitable Access to Excellent Educators

Implementation Tips Sheet #2: Identifying Metrics to Track Progress

May 2016

This tips sheet is the second in a series of briefs designed to help States monitor the implementation of their equity plans. It describes the relationship between goals and metrics in the context of equity plans and outlines a process that State education agency (SEA) staff can use to develop measures of progress or metrics for their equity goals.

Developing Metrics Aligned with a Theory of Action

SMART goals help make vision-level outcomes more concrete and measurable. Well-defined metrics allow a State to quantify progress toward the achievement of SMART goals and provide evidence of progress.

Equitable Access Support Network

State Plans to Ensure Equitable Access to Excellent Educators

Implementation Tips Sheet #3: Collecting, Analyzing, and Responding to Data

February 2017

This tips sheet is the third in a series of briefs designed to help States monitor the implementation of their educator equity plans. It describes a process that State educational agency (SEA) staff can use to collect, analyze, and respond to data related to their equity goals. The tips sheet expands on **Tips Sheet #1: Setting Equity Goals**, which guides States through the development of a theory of action and high-quality goals for closing equity gaps, and **Tips Sheet #2: Identifying Metrics to Track Progress**, which describes how the data element is defined, the level at which it is aggregated, and the timeline and circumstances under which it is collected (e.g., required vs. optional, used for accountability, used for funding determinations). If an SEA plans to use data for accountability or other purposes for which those data have not historically been used, it should communicate the new purpose to LEAs to encourage the submission of high-quality data.

RESOURCE REVIEW

- Together with your neighbor, choose one resource you'd like to explore in more depth.
- Take 10 minutes to review the resource you selected.
- After you have finished reading, discuss the following with a partner:
 - How is the resource related to your work?
 - Where do you see your State's practices reflected in the resource? Where does the resource push your thinking?
 - Who could you share the resource with as your State develops its ESSA plan?
 - Given where you are with your equity work, what other support(s) would be helpful?

Closing

The screenshot shows the homepage of the Equitable Access Support Network. At the top, there is a logo for the network and a navigation menu with 'Home' and 'Collaborate' options. Below the menu, there is a breadcrumb trail: 'Home > Overview > Home'. The main content area features a large banner image of a diverse group of students and a teacher sitting at a table, with the text 'Welcome to EASN Online!' overlaid. Below the banner, there is a paragraph of introductory text: 'Welcome to the Equitable Access Support Network website — your access point to useful tools and the latest news and products from EASN and its partners. Explore the resources and work with us to build a more equitable future for students across the country.' At the bottom, there are three circular icons representing different resources: 'Communities' (showing three people), 'Equity Plan Help' (showing a map of the United States with an equals sign), and 'Tools & Toolkits' (showing a presentation board with a bar chart and flowchart).
